## AFTERTHOUGHTS

Thanks to you, the number of Harudaki volumes has been able to reach a two-digit figure!! This time, Nitta's 24th comic is released and supported, thank you very much!

Let me do it properly. Good evening. I'm Nitta "Let's shout!"

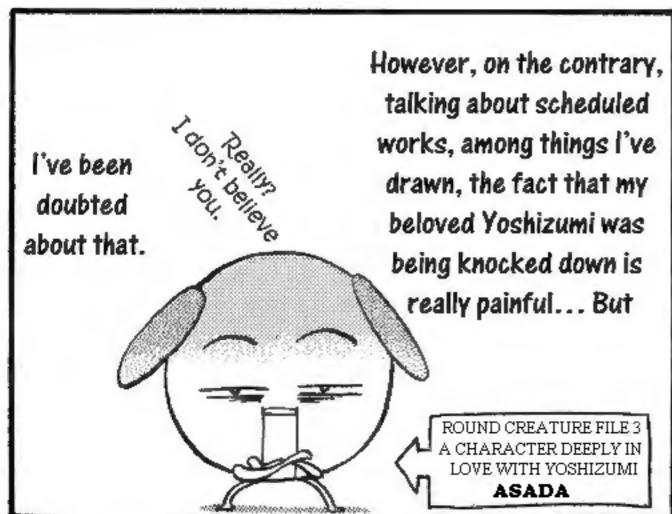

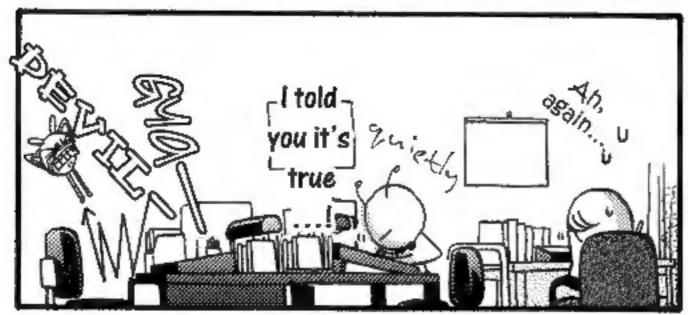

For me, partitipating for the whole year to this work was definitely like a festival, so busy and funny at the earne time! Thanks to all the staff for their hard work!! I thought they might not be interested in this And in this volume, everything releazed in this munth is presented heral!

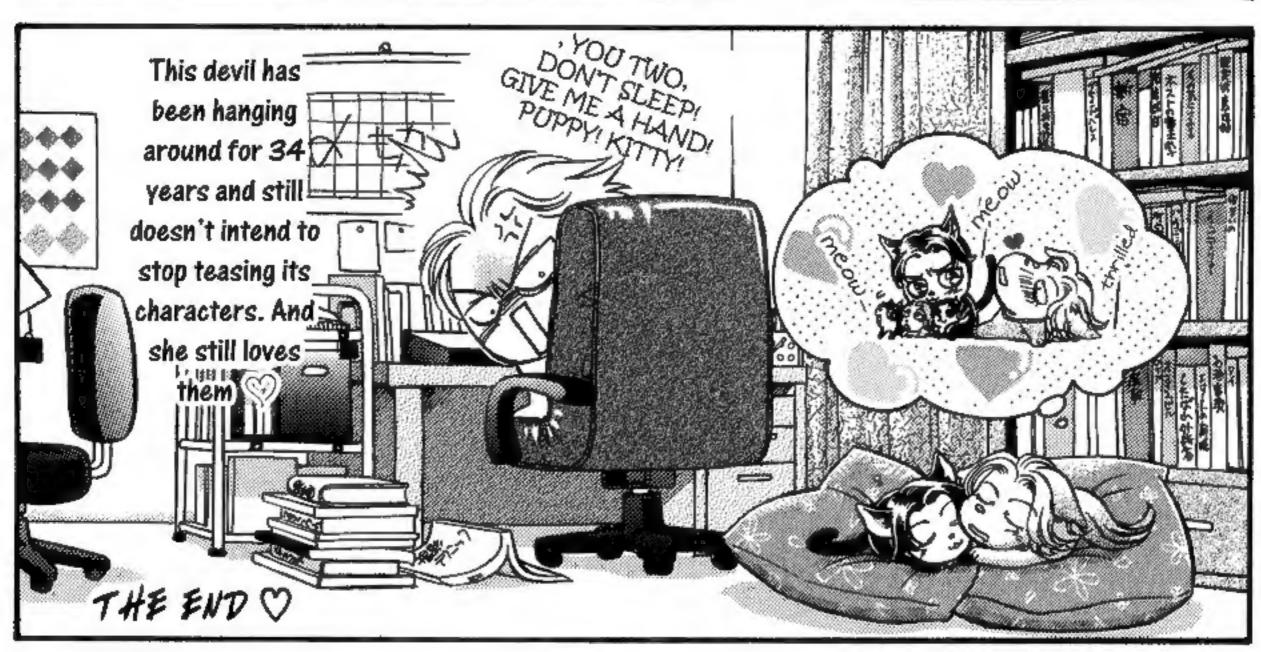

\*T/N: BLOWING TO COOL DRINK, NOT LAUGHING.

Now, certainly I've also been doing my best at my manga job the whole year! Especially after "Double Casting,"
I've really been showing off, since "Winter Cicada" filming was also moving into its final scenes.

Rather than worrying about losing my scattering preparation, I've been experiencing nervous days worrying that my big talk is gonna be closed.
